Welcome

JON & CAMILLE

Welcome to our 10th Annual bull sale edition! Earl, Debra and Jonathan first started marketing yearling bulls in 1992 by private treaty as well as consigning 2 year old bulls to the Calgary Bull sale. From 2000-2013, we hosted an annual event in March called the Open Barn Event and "U Pick a Bull" sale. Bulls were pre-priced. Buyers were welcome to come anytime, pick their bulls and we would write them down as the buyer. As our operation grew and our bulls gained in popularity, we felt it was time to move to a live sale. Jon & Camille were married in 2006. Having a bull sale was a goal for both of us. Camille was especially eager to move to a live auction, given her family history of auctioneers like her late Grandpa, Col. Jock Blacklock and her parents Bob & Marjorie owners & operators of the Saskatoon Auction Mart.

In 2013, it was time! The very first things we did were contacting Col. Ryan Dorran, Sir Rod McLeod and Mrs. Jan Lee for the catalog. We wanted a team that would be with us long term, and in 2014, our dream came to life!

SHELBY

Fast forward to 2021, we added a missing link, purchasing 70 purebred Charolais cows. Our program goal has always been to produce top quality bulls out of leading genetics for the commercial cow herd. Adding the Charolais option, allows us to offer the best of both maternal and terminal genetics. We believe cattle producers appreciate the option to purchase a bull that either adds that Maternal Angus influence or perhaps a serge of meat & muscle of a Charolais.

It seems very fitting this is our 10th Annual sale as we are so pleased with our offering of bulls. It feels like everything is starting to come together! We have and always will strive to seek out the best genetics in the marketplace for our customers. As 4th generation purebred Angus producers, we see a lot of depth and quality to our Black and Red cows. Pedigrees stacked with top quality longevity & strength. We also love being a part of the Charolais breed. We've met so many great people and we're excited to see the progress of our herd of whites.

BOW

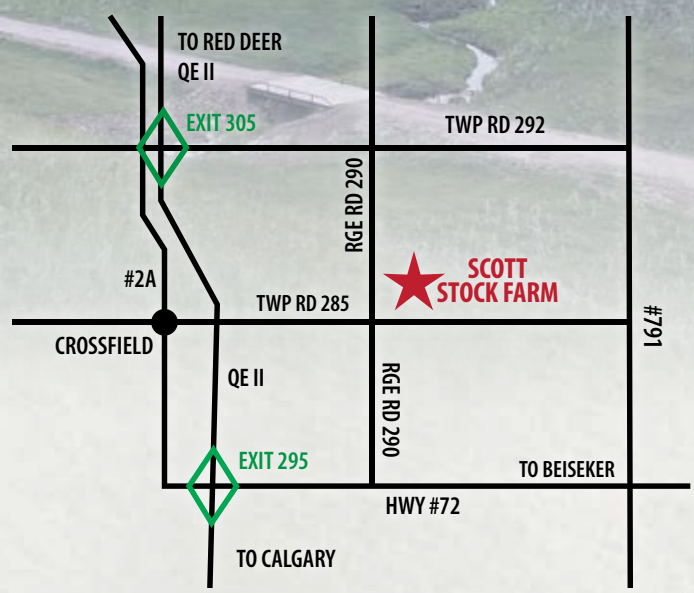

Another goal of our bull sale is to be an annual event to come together and celebrate everyone's hard work in this industry. We love to host, and we've always tried to put on the best Steak dinner with Grandma Debbie and Aunty Heather's homemade desserts!! The calving barn will once again be transformed - decorated, warm and ready! We hope you can join us on March 17th, sort through over 100 bulls, and celebrate belonging to this great industry with us.

Jonathan & Camille Scott

SVR Distinct was a feature bull in South View's 2019 bull sale. He is a big stout bull with lots of body capacity. He has added a lot of thickness which shows right at birth!! He has a near perfect foot on him. He is one of the best Red Angus bulls we've bought. Distinct is now a 5 year-old bull and looks just as good as the day we bought him! This year his bull calves averaged an impressive 3.18 pounds per day and average weaning weight of 760 lbs and 1233 lbs at yearling!

Merlin 018A is one of the breed's most talked about bulls and one of the top sellers of all breeds at AI studs. A true curve-bender, Merlin 018A calves are born small but exhibit excellent performance with impressive depth and thickness. Combining unmatched index power, calving ease, growth and carcass in one package, this bull is a breed leader. A reliable sire of performance-minded cattle with excellent carcass merit and a refreshing pedigree. This mild-mannered bull is making outstanding daughters in herds that demand a cow works for a living. Merlin 018A sorts to the top of the breed for many EPDs, yet provides pedigree flexibility that so many sires with his genetic merit do not. Merlin's current trait leading status puts him in the top 23% or better for thirteen EPD Traits and Indices.

The brand you can trust
SELECTING THE PERFECT HEIFER BULL AT SSF

SSSF

Proper heifer bull selection is absolutely crucial. Calving problems of any kind are costly in man hours and financially to the livestock producer. The most accurate information available to select a herd bull are EPDs (Expected Progeny Differences). EPDs are science-based facts and figures calculated by a breed association based on actual weights submitted by breeders. The majority of SSF heifer bulls are from A.I. sires with high accuracy numbers for calving ease. SSF follows a stringent selection process when selecting sires for calving ease in our own herd. SSF follows this process so we can guarantee easy calving bulls based on factual information to our customers.

A very attractive tan bull with a lot of quarter, thickness throughout and lots of middle. Distinct has a very quiet demeanor and it carries into his calves! Sleep easy with his calves and put profit in your pocket at weaning. Distinct 339D's calves are soggy, easy doing bulls with fantastic attitudes and explosive growth. His females are proving to be great mothers, with beautiful udders, lots of milk and super to work with.

Mindbender is a long, deep bodied bull with a very quiet demeanor. A calving ease bull with performance and stoutness. His 2022 bull calves were our heaviest group - averaging 747 lbs at weaning and 1247 lbs at yearling!! We also selected this bull for his maternal strength, he was out of a beautiful 14 year old cow that was flawless in her make up and foot structure.

Homegrown is a balanced maternal trait-oriented sire. Backed by a tremendous cow line at Ellingson Angus, North Dakota. He is siring cattle that are deep and thick with above average foot quality. He is a top calving ease sire. This sire group should stay moderate to use on heifers.

Profound was the crowd favourite and top selling bull from the 2019 Ellingson Angus bull sale. This sire group has muscle shape, depth of body, outstanding thickness, and superior foot quality. Profound will add pounds to your steer calves and leave you a tremendous set of broody females. Profound semen is very hard to come by and we were grateful the opportunity to use him. We mostly got females last year, which are looking to become some of our foundation females for the future. Check out these Profound sons as they are hard to come by and are some of the very best Angus genetics in production today.
